

# ArrowSpot

TOTAL SUPPLY CHAIN AND ASSET CONTROL

## ArrowTrack DV

Durable tracking device combines 4G, 2G and BT communication.  
Your eyes and ears at sea, at port, at motorways

Temperature monitoring

Door opening detection

Shock detection

Loading & unloading detection

Asset geolocation

Asset geofencing

Asset route deviation tracking

Asset demurrage monitoring

\*Connecting to all kinds of external sensors

### MAKING YOUR SUPPLY CHAIN RESILIENT THROUGH VISIBILITY

Resistant to harsh conditions

Bi-directional communication

One-time easy installation

Military grade batteries

+8 years operation

### CONTAINERS, TRAILERS, CHASSIS MOVING & STATIONARY ASSETS OVER LAND AND SEA

# ArrowSpot

## ArrowTrack DV

**Dimensions**  
206mm x 67mm x 29mm

**Processor and Memory**

- Low power processor with advanced algorithms
- Integrated memory for user data storage

**GNSS**  
GPS, GLONASS, BeiDou/Compass, Galileo, QZSS

**Battery**

- Built-In Long-Lasting Lithium battery
- Military standards
- 9.6 AH
- +8 years of battery life \*

**Installation**

- QUICK & EASY
- Various installation options

**Environment**

- Designed to operate in harsh environment
- Operates between -40°C to 80°C
- IP67 rating

**Sensors**

- 3-Axis Accelerometer
- Temperature sensor
- Door sensor

**Communication**

- CAT M1, NB IoT, 2G
- Bluetooth 5

**Software, Updates and Security**

- Smart embedded proprietary algorithms
- High standard encryption for secured boot and transmission
- High standard over the air encryption for remote software updates

\* Battery life may vary depending on actual usage.
